

The Warrior

By: Ben Tousey

It's the end of the world as they know it! The planet Darklands doesn't know this yet, but their days are numbered.

Wildy is a gang leader in Darklands City, the most notorious criminal throughout the land. He leads a gang so large, and so infamous, that he is considered both a military and law enforcement threat.

In his final battle as Darklands City's greatest menace, Wildy faces the one being who could—and intends to—destroy him. It is Draygon, the second most powerful entity upon the entire planet.

As Wildy faces down Draygon, the Warrior appears out of nowhere and shows Wildy the one thing he never thought he had: his Soul. The Warrior saves Wildy's life, and then disappears, asking nothing in return. Yet this glimpse of his own Soul, seen through the eyes of the Warrior, leaves Wildy desperate to connect to that deep part of him, and to do so he must find the Warrior.

In his search for the Warrior, Wildy meets Rusty; a young man who has been sequestered in The Fortress of Light. While Rusty does not recognize the Warrior by that name, he does know him by another name.

Before long, these two are running a gang even larger than Wildy's former band. Together they would lead a group with worldwide reach. If Wildy thought he was notorious before, that was nothing compared to the infamy he would see at this moment. He and Rusty would become both heroes and villains, depending on which side of this ultimate battle you wished to align your allegiances.
